

THE TODA CHRONICLE

23rd June 2011

Do you know what this is? **It's a map of the Internet.**

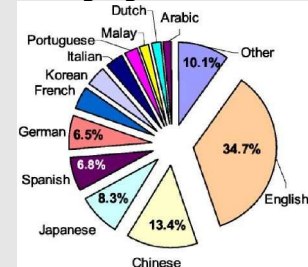

About **2,095,000,000 people** use the Internet. That's about **30%** of everyone in the world. In Japan about **99,000,000 people** (78.4%) use the Internet.

The Internet allows you to make friends in many countries, learn about new things, and write messages for millions of people to see.

If you want, you can **make your own web**

site too. You can write about things that interest you, show your art or photographs or even take a video of your club. If you **write in English**, maybe junior high school students from overseas will visit your web site too!

The language of the Internet

The language most used on the Internet is **English**.

It is estimated that by 2016, the most used language on the Internet will be **Chinese**.
